Kymyzai Aidosova

PRODUCT DESIGNER | AI-NATIVE PRODUCT BUILDER | UX/UI

aidosova.com LinkedIn k.aidosova@gmail.com Dubai, UAE +971 55 171 0037

SUMMARY

Product Designer with 5 years of experience building consumer products across iOS, Android, and web, spanning real estate, Fintech, and AI-driven products used by 10,000+ users in 20+ countries. Owns problems end to end: breaks down the goal, frames the problem, and carries the work through launch, measurement, and iteration. Turns ideas into working prototypes with AI coding tools (Claude Code, Cursor, Lovable) and front-end code, so teams react to something real instead of a slide. Uses product data, funnels, and experiments to decide what to build and to prove impact. Works closely with Product, Engineering, Data, and Marketing in Agile teams. Based in Dubai, UAE.

EXPERIENCE

Product Designer (UX/UI)

03/2023 – Present

Aurora AI | Dubai, UAE

- Designed AI-driven consumer products, turning complex AI functionality into clear, intuitive user journeys.
- Owned onboarding and sign-up from concept to launch, improving sign-up retention by 50%.
- Designed funnel landing pages and campaign banners with Marketing for products sold worldwide, validated with usability testing.
- Presented work in design reviews, articulating the reasoning behind each decision.

Product Designer (UX/UI)

11/2022 – 03/2023

NAAS Digital | Dubai, UAE (Hybrid)

- Designed mobile-first digital banking experiences for Al Maryah Community Bank, a regulated UAE bank, alongside other Fintech and SaaS products.
- Translated compliance, security, and business requirements into clear onboarding, authentication, and account dashboard flows that balance trust with ease of use.
- Worked with clients, engineers, and product teams in fast, iterative cycles with evolving requirements to ship production-ready designs.

UX/UI Designer (Freelance)

10/2022 – 12/2022

VOSTOK Real Estate | UAE (Remote)

- Led the redesign of a real estate platform, improving usability and property discovery.
- Simplified navigation and search flows so users browse listings and reach decisions faster.
- Delivered a modern, accessible, and responsive interface aligned with brand and user expectations.

UX/UI Designer

07/2022 – 09/2022

RADCODE Studio | Kyrgyzstan (Remote)

- Partnered with senior designers and product teams to design user-centered interfaces across web and mobile.
- Produced wireframes, interactive prototypes, and refined UI, supporting rapid iteration and validation.
- Maintained clarity, usability, and visual consistency across deliverables and reusable components.

SKILLS

CORE	Product Design · End-to-End Ownership · Problem Framing · Rapid Prototyping · AI-Driven Products · Onboarding & Sign-up Funnels · Fintech UX · Consumer Mobile (iOS, Android) & Web
UX & PRODUCT	Interaction Design · Visual Design · User Research · Usability Testing · A/B Testing & Experimentation · Funnel & Conversion Analysis · Product Metrics · Information Architecture · UX Writing · Localisation & RTL · Accessibility (WCAG)
DESIGN SYSTEMS	Design Systems · Reusable Components & Patterns · Design Tokens · Design Handoff
AI-NATIVE BUILDING	Prototyping with Coding Agents · Workflow Automation · AI Agents & Chatbots · MCP · AI-Assisted Design Workflow · Conversational UX · Prompt Design
TOOLS	Figma · Figma Make · Claude Code · Cursor · Codex · Lovable · Google AI Studio · Stitch · n8n · GitHub · Vercel · Supabase · Framer · Webflow · Miro
DELIVERY	Agile / Scrum · Collaboration with PM, Engineering, Data & Marketing · Go-to-Market with Marketing · Stakeholder Communication · HTML, CSS, JavaScript

EDUCATION

UX/UI Design

01/2022 – 06/2022

Jyldyz Academy | Bishkek, Kyrgyzstan

Faculty of Trade and Economics

09/2008 – 06/2013

Kyrgyz Economic University

CERTIFICATIONS & TRAINING

- AI for Product Designers, Interaction Design Foundation (in progress, 2025–2026)
- Vibe Coding, AI-Powered Product Design, JFBI (2025)
- Responsive Web Design, FreeCodeCamp (2022)
- HTML and CSS, HackIT (2022)
